

Cato Networks Virtual Fireside Chat

AUGUST 11, 2026 | 10:00 AM ET

Stephens is hosting a conference call for institutional investors with Cato Networks. Cato Networks is a pioneer and market leader in the rapidly growing Secure Access Service Edge (SASE) market, which converges networking and security into a unified, cloud-native platform. The company has also expanded its platform capabilities to address the emerging AI security market.

The discussion will cover the current state of the SASE market, including growth outlook, key demand drivers, evolving enterprise use cases, and competitive dynamics. The discussion will also explore broader enterprise networking and security trends, including cloud transformation, Zero Trust adoption, and security consolidation, as well as Cato Networks' strategy and competitive differentiation, platform innovation, and AI security roadmap.

Cato Networks

Eyal Webber-Zvik is the Chief Strategy Officer at Cato Networks, responsible for the company's strategic communications with investors, partners, and customers. A Cato veteran, Eyal has led multiple strategic and operational domains, including product marketing, pricing, analyst relations, technology alliances, cloud marketplaces, security thought leadership, and product management. He brings more than 25 years of experience in product marketing, product management, and software engineering across security, networking, and IT infrastructure.

Conference call date and time subject to change. To join the call or to obtain more information, please contact your Stephens sales representative.

Topics of Discussion

- The current state of the SASE market, including growth outlook, key demand drivers, evolving enterprise use cases, and competitive dynamics.
- Key enterprise IT and security trends, including cloud transformation, Zero Trust adoption, security consolidation, and the convergence of networking and security.
- Cato Networks' strategy and competitive differentiation, including its single-platform architecture, innovation strategy, and market positioning.
- The impact of AI on cybersecurity and SASE, including a deep dive into Cato's AI Security strategy, product innovation, and emerging use cases.
