

Cyera Virtual Fireside Chat

JUNE 22, 2026 | 11:00 AM ET

Stephens is hosting a conference call for institutional investors with Cyera, a leading provider of data and AI security solutions. Cyera is a data security company that helps organizations discover, classify, and protect sensitive data across cloud, SaaS, and AI environments. Originally focused on Data Security Posture Management (DSPM), the company has expanded its platform to address AI security by helping enterprises govern how sensitive data is accessed, used, and exposed in AI applications and workflows. During this call, we will review key data security and AI market trends, growth drivers, and competitive dynamics, as well as Cyera's growth opportunities, core differentiators, and platform innovation strategy.

Participants

Rick Holland, Data Security and AI Governance Officer

Rick Holland is the Data and AI Security Officer at Cyera, where he helps enterprises secure their data and harness AI responsibly. A seasoned cybersecurity executive, Rick previously served as Field CISO at ReliaQuest and as CISO and VP of Strategy at Digital Shadows, which ReliaQuest acquired in 2022. He was an early employee at Digital Shadows, where he led the Security and IT functions as well as the Photon Research threat intelligence team. Previously, Rick was a Vice President and Principal Analyst at Forrester Research, authoring more than 100 research reports and advising Fortune 500 companies on security program strategy.

Conference call date and time subject to change. To join the call or to obtain more information, please contact your Stephens sales representative.

Topics of Discussion

- Secular trends driving growth in the data security and AI security markets
- Enterprise adoption trends, customer buying priorities, and the evolving budget environment for data and AI security
- Cyera's growth trajectory, platform expansion strategy, and sources of competitive differentiation
- Cyera's strategic evolution from DSPM/data security into a broader AI security platform opportunity
- Competitive dynamics across data security, AI security, and broader cybersecurity markets
