## About i3 Verticals, Inc.

**i3 Verticals, Inc. (NASDAQ: IIIV)** is a software company delivering cloud-native, mission-critical solutions to strategic vertical markets, with a primary focus on the public sector. The Company's platform comprises integrated software and services that support essential government and institutional functions — including courts and justice systems, public safety, utilities, transportation, public administration, revenue collection, and education — enabling clients to modernize workflows, improve transparency, and deliver more effective constituent services. i3 Verticals generates a majority of its revenue from recurring software subscriptions, support, and related services, underpinned by thousands of installations across the U.S. and Canada. The business has strategically streamlined toward public sector software following the divestiture of non-core merchant and healthcare revenue cycle businesses, reinforcing its position as a specialized provider of enterprise solutions tailored to vertical-specific needs. The Company is headquartered in Nashville, Tennessee and maintains a disciplined M&A strategy to expand its addressable markets and drive long-term recurring revenue growth
