

Ping Identity Virtual Fireside Chat

JANUARY 7, 2026 | 1:00 PM ET

Stephens is hosting a conference call for institutional investors with Ping Identity, a leading provider of identity security solutions. Ping is widely regarded as a leader in Identity & Access Management (IAM) and is executing on a strategy to evolve into a broader, unified identity security platform provider. During this call, we will review key identity security market trends, growth drivers, and competitive dynamics, as well as Ping Identity's growth opportunities, core differentiators, and platform innovation strategy. We will also explore how the business has evolved since its 2022 acquisition by Thoma Bravo and subsequent merger with ForgeRock.

Participants

Peter Barker, Chief Product Officer

Peter Barker is Chief Product Officer, driving the global product vision, and joined Ping Identity via ForgeRock. Prior to ForgeRock, Peter served as senior vice president and general manager of the Identity Management and Security business at Oracle. Based in Austin, Texas, Peter previously held executive-level positions at Good Technology, Motorola, FedEx and other companies.

Conference call date and time subject to change. To join the call or to obtain more information, please contact your Stephens sales representative.

Topics of Discussion

- Review Ping Identity's strategic evolution from a traditional IAM provider to a unified identity security platform, including how the business has developed as a private company and how the integration with ForgeRock expands product breadth, customer reach, and platform capabilities.
- Discuss the current state of the identity security market including key demand drivers, the shift toward unified identity security platforms, and market/competitive dynamics across core. Review market and competitive dynamics across core segments, including Workforce IAM, CIAM, PAM, and IGA.
- Explore Ping Identity's key long-term growth drivers and the company's priority areas for platform innovation.
- Review the emerging opportunity for machine identity security and AI agent identity security, along with Ping Identity's strategy and differentiation in these areas.
- Examine additional emerging growth vectors related to digital identity, decentralized identity, and identity verification.
