

## Banks & the Blockchain - Nathan McCauley from Anchorage Digital

OCTOBER 3, 2022 | 1:00PM ET

Stephens is hosting a conference call for institutional investors with Nathan McCauley, the Co-Founder and CEO of Anchorage Digital. This call will discuss the company itself, one of the only OCC chartered digital asset trust banks, including its founding, recent events and outlook for the digital industry. We'll discuss the OCC approval process, why the OCC charter was the route they chose to go vs. other charters, and thoughts around the longer term outlook for additional digital asset custody banks to enter the space. In addition, we'll discuss areas of overlap between Anchorage and traditional depositories, recent trends within the crypto space and longer term use cases for both crypto and blockchain technologies.

### About the Featured Speaker

#### Nathan McCauley

Nathan McCauley is the Co-Founder and CEO of Anchorage, the leading digital asset platform for institutions. He started his career at Arxon Technologies, where he worked on anti-reverse engineering and key management for commercial and military applications. As an early employee at Square, he worked on the infrastructure security platform now used to move over \$80B in annualized GPV. Later, at Docker, together with Anchorage Co-Founder Diogo Monica, he built and led the security team, developing code that helps secure containers, one of the core underpinnings of modern infrastructure.

Conference call date and time subject to change. To join the call or to obtain more information, please contact your Stephens sales representative.

October 3, 2022 | 1:00PM ET

#### Topics of Discussion:

- Introduction to Anchorage Digital - a newly OCC chartered crypto-focused bank. Updates on products, services and recent developments for the company.
- Business model of digital asset custody bank vs. traditional wealth managers and depositories - areas of overlap/differentiation.
- Compare/Contrast OCC and other crypto-related charters. Thoughts on the future OCC digital asset charter approvals.
- How/where Anchorage overlaps with traditional depositories? Areas of competition and synergies?
- Use cases for crypto and blockchain and how the bank is thinking about the long term evolution of these nascent industries.
- Thoughts on stable coin's role in the crypto-ecosystem in addition to where/who it's ideally issued by.
- Thoughts on the long term outlook for digital assets in light of the recent sell-off.
