About ModivCare Inc.

ModivCare Inc., a technology-enabled healthcare services company, provides a suite of integrated supportive care solutions for public and private payors and patients. The company operates through four segments: Non-Emergency Medical Transportation (NEMT), Personal Care, Remote Patient Monitoring (RPM), and the Matrix Investment. The NEMT segment offers contact center management, network credentialing, claims management, and non-emergency medical transport management services for Medicaid or Medicare eligible members, whose limited mobility or financial resources hinder their ability to access necessary healthcare and social services. The Personal Care segment provides bathing, personal hygiene, grooming, oral care, dressing, medication reminders, meal planning, preparation and feeding, housekeeping, transportation services, prescription reminders, and assistance with dressing and ambulation services through placing non-medical personal care assistants, home health aides, and skilled nurses primarily to Medicaid patients in need of care monitoring and assistance in performing daily living activities, including senior citizens and disabled adults. The RPM segment offers personal emergency response systems, vitals monitoring, medication management, and data-driven patient engagement solutions. The Matrix Investment segment provides in-home and on-site care services, as well as a fleet of mobile health clinics that offers community-based care with advanced diagnostic capabilities and care options. It serves federal, state, and local government agencies, MCOs, commercial insurers, private individuals, and health systems. The company was formerly known as The Providence Service Corporation and changed its name to ModivCare Inc. in January 2021. ModivCare Inc. was incorporated in 1996 and is headquartered in Denver, Colorado.
