

Banks & the Blockchain

Figure Technologies and JAM FINTOP

SEPTEMBER 28, 2021 | 2:00PM ET

Stephens is hosting a conference call for institutional investors and community/commercial banks with Mike Cagney from Figure Technologies, as well as Ryan Zacharia and Adam Aspes from the investment committee of JAM FINTOP.

This call will discuss Figure Technologies' efforts in the financial services space, including their product set for both individuals and institutions, Figure Pay, as well as thoughts on how blockchain enabled lending, payments, trading, and servicing can be a game changer in the financial services space.

In addition, we aim to also learn more about Figure's partnership with JAM FINTOP Blockchain. We will discuss the fund's purpose, including investing in blockchain infrastructure companies, but also the aim of building a working group of banks and regulators to create a regulatory compliant digital marker with reciprocity amongst banks in the consortium network. We will ask how this type of widely accepted digital dollar is a better fit for today's environment vs. the existing available offerings, including stablecoins.

About the Company & Speakers

Mike Cagney
CEO & co-founder

Mr. Cagney is an American entrepreneur. He is the co-founder and CEO of financial services company Figure Technologies, a member of the founding team of Provenance Blockchain and the co-founder and former CEO of SoFi. Cagney is also co-founder and was the managing member of hedge fund Cabezon Investment Group and serves as a non-executive chairman of ReFlow.

Ryan Zacharia
General Partner at JAM Special Opportunity Ventures and a member of the Investment Committee for JAM FINTOP Banktech.

Adam Aspes
General Partner at JAM Special Opportunity Ventures and a member of the Investment Committee for JAM FINTOP Banktech.

Conference call date and time subject to change. To join the call or to obtain more information, please contact your Stephens sales representative.

September 28, 2021 | 2:00pm ET

Topics of Discussion

- Figure Technologies is a blockchain holding Company - who they are, their mission and partnership with JAM FINTOP.
- Figure's products (for individuals and institutions) and how utilization of the blockchain and smart contracts provides a competitive advantage.
- The Provenance blockchain; a blockchain built by Figure to support the financial services industry.
- Figure's partnerships, including NYCB and Apollo Global Asset Management, and their blockchain solutions for an asset manager and a traditional commercial bank.
- Figure's relationship with JAM FINTOP Blockchain; learn about the fund, the opportunity set, and goals.
- JAM FINTOP Blockchain's efforts to form a working group of banks and regulators in an effort to design a regulatory compliant digital marker with reciprocity amongst a consortium of banks in the network
