### Expert Call with Michael Shaulov at Fireblocks

MARCH 31, 2021 | 1:30PM ET

Stephens is hosting a conference call for institutional investors with Michael Shaulov, the CEO and co-founder of Fireblocks, as secure digital asset infrastructure company.

This call will discuss regulators more favorable view on digital currencies, and the use of stablecoins/digital assets within the banking system. In addition, we will look to provide some insight on where we are in the adoption process of using digital assets within the banking system, the infrastructure needed for real time payments using digital assets, and the broader tokenization of financial assets moving forward.

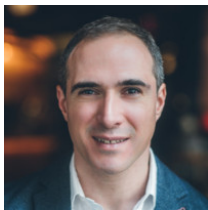

#### Company Bio

Fireblocks is an enterprise-grade platform delivering a secure infrastructure for moving, storing, and issuing digital assets. Fireblocks enables exchanges, custodians, banks, trading desks, and hedge funds to securely scale digital asset operations through the Fireblocks Network and MPC-based Wallet Infrastructure. They have secured the transfer of over \$300 billion in digital assets and have a unique insurance policy that covers assets in storage and transit.
