

## Crop Progress Expert Call with Dr. Michael Cordonnier

*Crop Conditions After the Storms*

Wednesday, September 2 at 11:00 am ET/10:00 am CT

Stephens is hosting a conference call for institutional investors with Dr. Cordonnier. This call will discuss current crop conditions. Crop conditions are a key driver of ag input stocks, protein stocks, and impact ethanol producers.

### About Featured Speaker Dr. Michael Cordonnier

Dr. Cordonnier holds a Ph.D. in agronomy from Michigan State University and has been involved in global crop production for more than 35 years. His experience in South America started in the early 1970's when he conducted agricultural experiments in central Brazil. He has been a keen observer of the development of the soybean industry in South America over the last thirty years. Dr. Cordonnier is fluent in Portuguese and travels regularly to Brazil, Argentina, and Paraguay to inspect the soybean and corn crops. He appears frequently on national television and radio programs to discuss world agricultural issues and he conducts numerous seminars dealing with agricultural production for regional and national audiences. He is now president of Soybean And Corn Advisor, Inc., a consulting firm that works with many Fortune 500 companies and the agricultural trading community specializing in fundamental analysis of soybean and corn production with special emphasis on South America

**Conference call date and time subject to change. To join the call or to obtain more information, please contact your Stephens sales representative.**

Wednesday, September 2 at 11:00 am ET/10:00 am CT
