

## Call with Anthony Davies From Dark Horse Consulting to Discuss Key CGT Trends

AUGUST 17, 2021 | 2:00PM ET

Stephens is hosting a conference call for institutional investors with Anthony Davies, Ph.D., Founder and CEO of Dark Horse Consulting, a leading global consultancy practice in the development of cell and gene therapy products, having served over 100 customers in this field since inception.

This call will focus on key cell and gene therapy industry trends, including the industrialization of the industry and outlook for approvals, the regulatory landscape, key bioprocessing/manufacturing trends, and the outlook for viral vector manufacturing capacity.

### About Featured Speaker & Company

Anthony Davies, Ph.D., is Founder and CEO of Dark Horse Consulting. Mr. Davies founded Dark Horse Consulting in 2014, bringing his 20+ years of leadership experience in product, process and manufacturing development to cell and gene therapy companies in need.

Prior to the founding of Dark Horse Consulting, Anthony served as a senior executive for multiple publicly traded and privately held companies, building a reputation of innovation, dedication and competency.

**Conference call date and time subject to change. To join the call or to obtain more information, please contact your Stephens sales representative.**

August 17, 2021 | 2:00PM ET

#### Topics of Discussion

- High level CGT industry trends: regulatory/reimbursement and the outlook for approvals in coming years.
- Industry debates: autologous vs. allogeneic, scale up vs. scale out, insourcing vs. outsourcing.
- Key manufacturing challenges for the CGT industry and what is necessary to optimize these processes.
- The viral vector industry including supply/demand trends.
